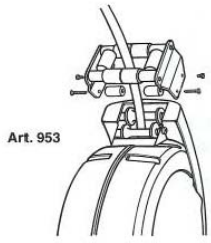
Series 813 Hose Reels have an external case manufactured from die cast aluminium and fitted with matt polyurathene hose. This range of drums comes complete with pivot mounting bracket as standard and features a ratchet stop every 50cm which can be easily disconnected if constant traction of hose is required. This range of drums is particularly recommended for manual payout applications.

Standard options include :-
949/813 - Fixed mounting bracket, ie removing the possibility of pivoting, this is essential for ceiling or floor mounting for vertical payout applications


953 - Roller guide (essential for ceiling mounting applications) >>>>>>>>>>>>
