

Plugs & Sockets

Multi Pin Plugs & Sockets

SIMBAL carry large stocks of a full range of multi pin plugs and sockets suitable for a large variety of industrial applications. Inserts are supplied independent from the housings enabling a large variety of male and female plugs and sockets to be created, we can also supply sockets pre-mounted on travelling trolleys to suit applications such as overhead cranes and hoist units operated by mobile control pendants.

Examples

4 Pin 80A

18 Pin 10A

10 Pin 16A

All male and female inserts can be supplied in either side entry or top entry hoods, high construction hoods are also available where required. Sockets are available with either base or panel mount housings. Like the hoods, the mountings are universal and can accept either male or female inserts. Inserts are available with up to 24 pins, a selection from the range is shown above (all housings can be supplied with glands to suit either round or flatform cables, or without glands as required).
